PROFILE SUMMARY

Software Developer specializing in building scalable full-stack web applications with Python, Django, Django REST Framework, and React. Skilled in designing RESTful services, database architectures, asynchronous workflows, and modern frontend applications. Familiar with PostgreSQL, Redis, Celery, Docker, Kubernetes, and CI/CD practices, with a strong foundation in Data Structures and Algorithms.

TECHNICAL SKILLS

Programming: JavaScript, Python, TypeScript
Frontend: React.js, Redux Toolkit, Tailwind CSS, shadcn/ui
Backend: Django, Django REST Framework, Celery, JWT Authentication, Django Channels
Databases & Caching: PostgreSQL, Redis, Elasticsearch
Cloud & DevOps: Docker, AWS EC2, CI/CD (GitHub Actions), Nginx, Kubernetes
Integrations & Tools: PayPal, Cloudinary, Git, GitHub, SonarQube

PROJECTS

GROLANCE (Full-Stack Freelancing Platform)

- A full-stack web application connecting clients and freelancers through role-based workflows.
- Implemented secure authentication and authorization using JWT and role-based access control.
- Designed and developed RESTful APIs using Django and Django REST Framework.
- Implemented core features: proposals, contracts, PayPal escrow payments, real-time alerts, dispute management.
- Utilized PostgreSQL for persistent storage and Redis with Celery for caching and async processing.
- Tech Stack: Django, DRF, React, PostgreSQL, Redis, Celery, JWT, TailwindCSS

ChitChat – Real-Time Messaging Platform

- Built a real-time messaging application with WebSocket-based communication using Django Channels, JWT authentication, and responsive UI.
- Tech Stack: React, Django, DRF, Django Channels, Redis, PostgreSQL, TailwindCSS

ReStore – C2C Marketplace Platform

- Marketplace platform for discovering, buying, and selling pre-owned items with Cloudinary image management and Redux Toolkit state.
- Tech Stack: React, Vite, Redux Toolkit, Firebase, Cloudinary

EDUCATION & PROFESSIONAL TRAINING

Professional Training – Full Stack Development (Django + React) - Brototype (May 2025 – Present)

- Built and deployed full-stack applications using Django, DRF, React, and PostgreSQL.
- Implemented real-time communication and background processing using Django Channels, Redis, and Celery.
